

Playing Up

If your player played this last immediate season in a higher division than their designated age division, they are eligible to play up again without trying out in that upper division. Please register in the players age appropriate division and then send an email to the league vacavillegirlsfastpitch@gmail.com and request the same previous division that you player participated in.

If your player did not, in the immediate last season “play up” then your player is required to tryout in that upper division in order to be evaluated to be eligible to play up. They would still also tryout in their age division as well, though this is not mandatory.
