

## Playing Up

Any player that's wants to "play up" into a higher division than their designated age must initially tryout for that upper division and be approved. They do so by attending assessments for that upper division.

If your player played this last immediate season in a higher division than their designated age division, they are eligible to play up again without trying out in that upper division. Please register in the players age appropriate division and then send an email to the league [vacavillegirlsfastpitch@gmail.com](mailto:vacavillegirlsfastpitch@gmail.com) and request the same previous division that you player participated in.

Once a player "plays up" with us or another league, whether travel or recreational, they are not allowed to play back down.
